

Code: FLMD-252.05

Course title: Cinematic Workshop II (Advanced)

Course convenors: András Salamon

Class time and place: Tuesday, 4:00-7:00 pm, Studio

Course type: Lecture and practical work

Course content: During Semester One, in a teacher-supervised course, students are introduced to the aesthetics of black & white and color photography and cinematography. Students also learn the fundamentals of the art and craft of lighting. This workshop presupposes no prior knowledge of Cinematography, but aims to have students confident in the fundamentals of exposure, composition, set-etiquette and lighting by the end of the year.
